CEREMONY VISIONING:

Initial planning meeting in person. This is usually combined with a venue visit to feel into the ceremony flow. This is where all your lovely ideas combine with mine and we can start to visualise your beautiful wedding ceremony.

6 years of ceremony experience really pay off with a plethora of bespoke help and advice for all your ceremony content. We'll discuss symbolism that suits the essence of you as a couple. Some couples go all out and include many different rituals, others want to keep it simple - it's totally up to you. I offer phone & email contact and guidance throughout the ceremony crafting process, where we can catch up over calls leading up to the ceremony.

CEREMONY PREPARATION:

As required, i also offer a service of working alongside your chosen suppliers to create & style your sacred space. I will ensure that the entire process is as enjoyable and stress free as possible by preparing the ceremonial space for an effortless flow on your wedding day.
